CONSTRUCTION PHILOSOPHY

Despite its recent Establishment in 2020 Green Houses Technology has undertaken many challenging project and accumulated skills, know-how experiences in build solution, project management services and related engineering works.

Today Green Houses Technology takes on the role of main contractor for small to medium size projects and performs project management services to coordinates specialist trades for industrial, commercial and Residential project.

Our objective is to provide our clients with an **“I am assured”** when we are chosen to execute their project.

Our emphasis on clear communication and follow-through procedures ensures that client's objectives are top priority in the planning and execution of all our processes.

Our project management and execution philosophy is:

- Create detail schedule and resources plan to meet client's project objective.
- Communicate clearly with all project stakeholders.
- Track project progress and fine-tune deviations.
- Supervise closely on quality of work done.
- Complete and commission the project on time.

We take pride in our delivery, thus our clients can always be assured that only the most experienced and qualified people are serving them, all the time.

OUR MISSION

The mission of "GREEN HOUSES TECHNOLOGY"

is to build up reputation of integrity, excellence, experience and leadership which is by:

- Continuously improving the quality of our work and service.
- Striving to be always up to the Client's expectations.
- Proving our staff with a challenging, secure and safe environment in which they can achieve their personal career goal.

OUR VISION

In rapidly demanding industry for sustainability, we had a vision not to be an audience and a customers of technology, but we determined to be a major player for Architectural services and civil engineering solutions and improve our productivity by maintaining the highest levels of sustainability

Delivery in the time

Quality

Confidence

OUR GREEN BUILDING PROSPECTS

The Green Building is basically, creation of effective building elements and adopting appropriate processes that are environmentally responsible as well as resource-efficient. These methods are used at every phase of building, if cycle arranging, all over from design to construction.

The green building concept is all about increasing the efficiency with which natural resources are being used such as energy, water, material, etc., reducing its adverse impact on human health as well as the environment throughout the lifecycle of the building. The green building concept is all about increasing the efficiency with which the natural resources such as energy, water, material, etc. are used in the building process and reducing its adverse impact on human health as well as the environment throughout.

The Green building concept is extended far beyond the mere building structure.

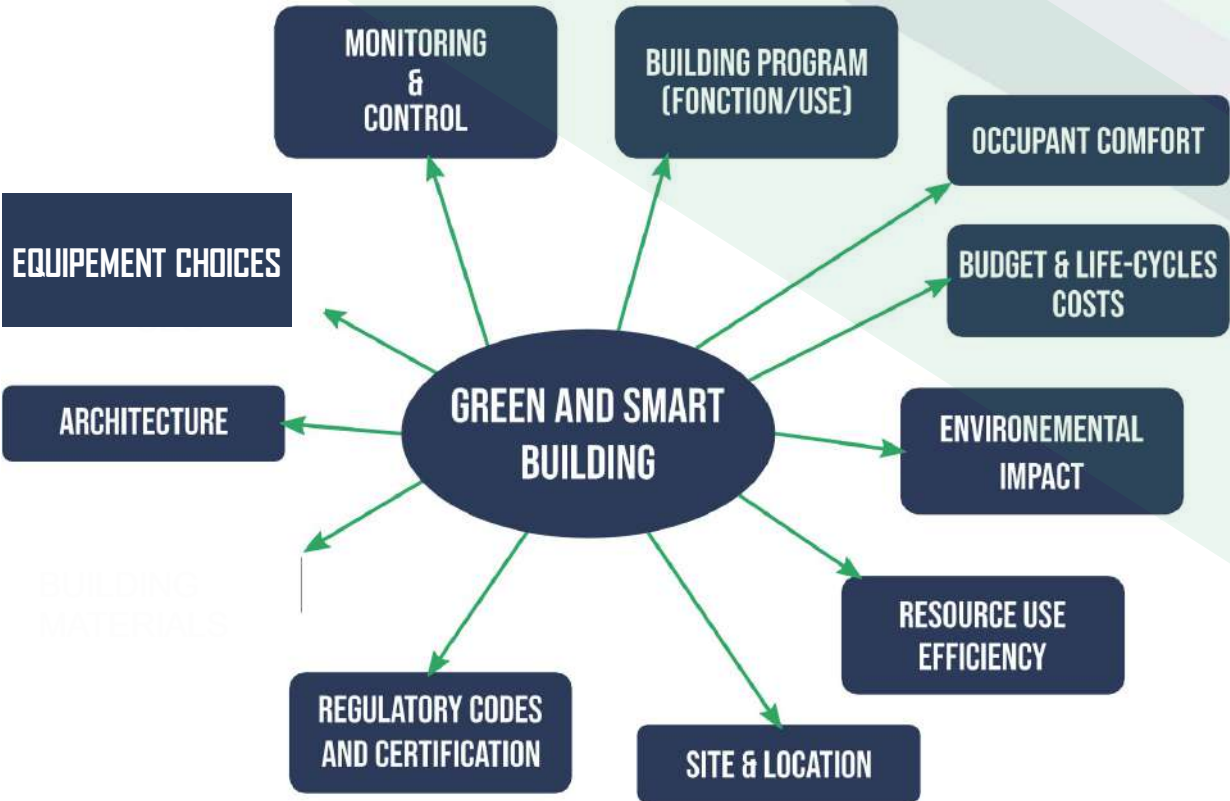

OUR CONCEPT OF SMART BUILDING

A more efficient building portfolio can improve the value of real estate assets, help the bottom line, cut emissions and bolster the corporate image. So, there is acute need of building that can work intelligently i.e. smartly. A Smart Building minimizes energy and water consumption which lead to minimize waste and maximize recycling.

We aim to provide healthy living conditions and promotes environmental performance.

QUALITY POLICY

The company major objective is to achieve the higher level of Client satisfaction by meeting their expectations with the right advices and fulfilling all requirements to the high end quality standards with adherence to schedules and deliveries.

GREEN HOUSES TECHNOLOGY is committed to:

- Procure project at competitive pricing and to deliver quality work within reasonable time frame.
- Achieve customer satisfactory.
- Create an environment to work as a team and set quality objective and targets aimed to continual improvements.
- Meets statutory and regulatory requirements related to the works.

HSE POLICY

Green Houses Technology W.L.L. regards health and safety matters as a priority and an integral part of all its operations, including the review and maintenance of high quality systems and standards.

We regard employees as our key resources, their contribution to achieve our business objectives is vital. We intend to provide a safe working environment that is without risks to health. It is our policy to ensure all health and safety system are dynamic and under continuous improvement.

- We accept our statutory responsibility and where possible, seek to exceed them.
- We will ensure that anyone working at our premises is not exposed to risks that may arise from our undertaking.
- We will ensure that there is a suitable organization structure for planning, implementing, monitoring, reviewing and evaluating health and safety activities.

OUR SERVICES

1. CIVIL WORKS

Execution of all kind of civil works including but not limited to :

- Excavation Works
- Shoring Systems
- Reinforced Concrete Structures
- Steel Structures

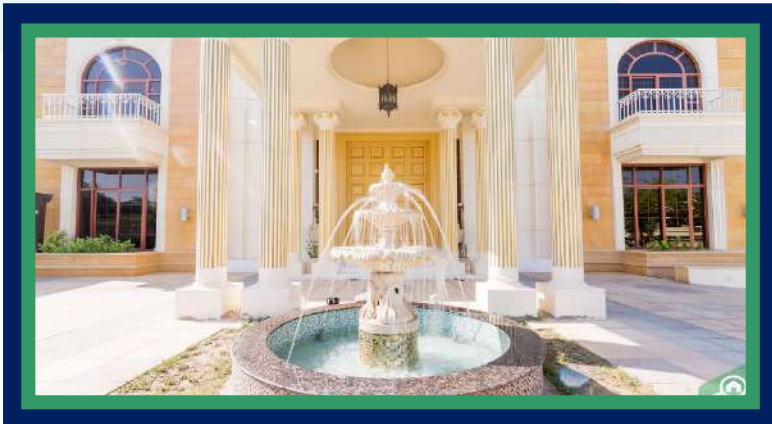

2. FIT OUT WORKS

- Block & Plaster works
- Joinery works
- Flooring works
- Wall cladding
- Ceiling works
- Painting Works
- Decorative Items

3. LANDSCAPE WORKS

- Soft Landscape
- Hard Landscape
- Water Fountain
- Swimming pools

4. MEP SERVICES

- Electrical Works
- Plumbing Works
- HVAC System
- Life Safety Systems

5. Infrastructure

- Road Works
- Underground Services

6. Building Maintenance & Management

- Civil Maintenance
- MEP Maintenance
- Renovation
- Cleaning Services
